Peab builds new swimming pool facility in Nacka

Peab has been commissioned to build a new swimming pool facility in Saltsjöbaden, south of Stockholm. The customer is Nacka Municipality and the contract is worth SEK 265 million.

The project entails building a new swimming pool facility, Näckenbadet, doing the associated groundwork and tearing down the existing swimming pool facility. It will be built on two floors and contain a 25 meter pool with six swimming lanes, a training pool with a height adjustable bottom and personnel space.

“We’re proud to be part of building this new swimming pool facility. It will be a fine meeting place for both training and relaxation for everyone living in Nacka and visitors to the community,” says Lars Enroth, Region Manager Peab.

“The new Näckenbadet will be a long awaited addition to Nacka Municipality. I look forward to getting construction underway so that all the residents of Nacka can soon have access to yet another modern and well-equipped swimming pool facility. The new Näckenbadet will also provide all our swimming clubs with a place to exercise and do sports,” says Mats Gerdau, Chairman of the Municipal Board.

The project is a traditional contract with some turnkey contract parts. The building will correspond to the level of Miljöbyggnad Silver. Construction will start in February 2023 and occupation is planned for 2025.

The project will be order registered in the first quarter 2023.
