Peab builds adapted housing and a daytime activity center in Harstad

Peab has been commissioned to build adapted housing and a daytime activity center in Harstad. The customer is Harstad Municipality and the contract is worth NOK 114 million.

Peab is going to build adapted housing for people with disabilities at Gangsås in Harstad for a gross area of 1,450 m² and a daytime activity center of 1,350 m² gross area, divided into two buildings on two floors. The housing will be manned day and night and therefore the buildings will have spaces for personnel. The project also includes considerable work on the surrounding outside area.

“We’re very pleased to continue our great collaboration with Harstad Municipality. Peab will make life easier for people with disabilities by building adapted housing and a daytime activity center. This project in Harstad is very important to us,” says Trygve Nilsen, District Manager Peab.

The project is a turnkey contract. Construction will start immediately and the project is expected to be completed by April 2025.

The project will be order registered in the fourth quarter 2023.
