Peab builds apartments in Sigtuna

Peab has been commissioned to build 98 apartments in Steninge Slottsby, Sigtuna, north of Stockholm. The customer is Borohus and Innovation Properties and the contract is worth SEK 139 million.

The new apartment building will be built in Steninge Slottsby in Sigtuna surrounded by beautiful nature with near by swimming and a historical manor house environment. The building will contain one or three bedroom apartments as well as a penthouse floor with three or four bedroom apartments.

“We are very happy to help meet the need for more homes in Sigtuna. We have carried out several projects in Steninge Slottsby that with its rustic charm is nonetheless centrally located and close to Arlanda and Uppsala. Being part of community building and creating homes close to nature and jobs is important work,” says Louise Strömbeck, Region Manager Peab.

The project is a turnkey contract. Construction will begin in January and occupation is planned for the fall of 2022.

The project will be order registered in the fourth quarter 2020.
