Peab builds police station in Malmö

Peab has been commissioned to build a new police station in Malmö. The customer is Specialfastigheter and the contract is worth SEK 448 million.

The new police station will be located in Vintrie in Malmö and will among other things contain offices, training areas and locker rooms. In total, the station will make a total of around 17,000 m². The building will be built according to Miljöbyggnad Gold.

“We’re pleased to have been entrusted with building the new police station together with Specialfastigheter. Building police stations is complex and makes high demands on us as contractors and we’re proud to contribute with our expertise in this project,” says Olle Olsson, Region Manager Peab.

The project is a turnkey contract. Construction is planned to start in September 2023 and the project is expected to be completed by the spring of 2026 when Specialfastigheter will turn it over to the Swedish Police Authority.

The project was order registered in the first quarter 2023.
