Peab builds swimming pool facility in Hässleholm

Peab has been commissioned to build a new swimming pool facility in Hässleholm. The customer is Hässleholm Municipality and the contract is worth SEK 376 million.

The new swimming pool facility will be located in the Österås area of Hässleholm. The swimming pool facility will contain ten different pools, a relax area, a summer pool and an adventure pool with slides and aquatic games. In total the facility will be 7,500 m² and built according to Miljöbyggnad Silver.

“This is a good and vital community project for the residents of Hässleholm Municipality and naturally we’re proud to contribute to it. We hope this new swimming pool facility will be an important place for both training and relaxation where people of all ages can meet,” says Olle Olsson, Region Manager Peab.

The project is a turnkey contract in partnership. Construction will start in September 2023 and is expected to be completed in November 2025.

The project will be order registered in the third quarter 2023.
