Peab expands high school in Luleå

Peab has been commissioned to renovate and expand Kungsfågeln High School in Luleå. The customer is Luleå Municipality and the contract is worth SEK 103 million.

The project includes demolishing, rebuilding, expanding and groundwork.

"We feel we're making a valuable contribution to Luleå Municipality's ability to provide even better education in the community. I'm proud that we're building to meet Luleå's – and other municipalities' – need for educational facilities with our local presence and employees for both," says Susanne Hallberg, Region Manager Peab.

Some of the material that meet current requirements such as ceiling material, sanitary ware and windows will be reused.

"Together with the high school and Peab we're creating a modern and inspiring place for learning and development," says Anna-Maria Killmey, Project Manager at Luleå Municipality.

The project is a traditional contract. Work will start in April 2025 and is expected to be completed in June 2026.

The project will be order registered in the second quarter 2025.
