Peab receives supplemental order for construction in Skänninge

Peab has received a supplemental order regarding the project at the prison and jail in Skänninge in Östergötland for the new construction of a modular building F. The customer is Specialfastigheter and the contract is worth SEK 103 million.

Construction at the prison and jail in Skänninge in Östergötland has been underway for several years. Now Peab has received a supplemental order for a modular building F. It's a two story occupational building with installations in the attic and a total floor space of 4,000 m².

"Building jails is complex and puts very high demands on us as the general contractor. I'm really pleased we continue to be relied upon. The supplemental order is proof positive that our customer is happy with the work we've done on the prison and jail in Skänninge," says Anders Bergeling, Region Manager Peab.

Construction is planned to start at the end of 2021/beginning of 2022. The new building is expected to be ready in the summer of 2023.

The project will be order registered in the fourth quarter 2021.
