Peab builds new swimming pool block in Partille

Peab has been commissioned to build a new swimming pool block in Partille Municipality. The customer is Partillebo and the contract is worth SEK 1.3 billion.

The project consists of building a new swimming pool block containing a swimming pool facility, apartments, commercial space and parking garage in the borough Partille Port in central Partille. The swimming pool facility will have room for both training and relaxing and include an exercise pool, two multi-pools with height adjustable bottoms and a family pool with a waterslide. The facility will also have a separate relax section with accompanying wellness area. Peab will also build 95 rental apartments along with commercial space in the swimming pool block. A parking garage will be built next to, and under, the building.

“I’m so pleased and proud that Peab can continue to develop Partille, this time together with Partillebo. Building a swimming pool facility is a significant community investment and it will be an important place for both training and relaxation. I hope this new swimming pool block will elevate the quality of life for the residents of Partille and be an inspiration for an even livelier urban environment,” says Liselott Bergkvist, Region Manager Peab.

Placing the swimming pool facility next to Partille Arena is a natural way of expanding the area - an effort that began back in 2012. The swimming pool facility and parking garage will, like their neighbor Partille Arena, be powered by solar energy. The swimming pool facility will reinforce Partille’s position as one of Sweden’s foremost sports cities by providing good opportunities for a broad spectrum of sports associations and be a meeting place for everyone who lives and works in Partille.

“We look forward to contributing to strengthening Partille’s identity as a prominent sports city while also offering a modern and sustainable residential environment. This is an investment in both the present and the future for our municipality,” says Mats Nilsson, MD of Partillebo.

The project is a turnkey contract and project planning will begin immediately.

The project will be order registered in the first quarter 2024.

THE SWIMMING POOL BLOCK FACTS

The following is included in Peab’s swimming pool block commission:

- 10,000 m² swimming pool facility
- 1,000 m² relax and accompanying wellness area
- 1,000 m² premises (facing Gamla Kron Street)
- 4,000 m² commercial space
- 11,000 m² rental apartments
- Parking garage directly south of the swimming pool block as well as under the apartments in the eastern section.
